Only 17 left in stock - order soon.

What is a solar powered water pump?

Solar-powered Water Pumps: These pumps use energy from the sun to power electric pumps, which extract water from the ground. The price and technology have evolved in recent years, allowing solar-powered water pumps to be a more affordable, reliable and environmentally sustainable solution to water scarcity.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.
