

# 40-foot collapsible container for urban lighting

## Overview

---

What is a 40ft flat rack container?

The 40ft flat rack container from Pelican Containers is your godsend if you need a solution that can handle the heaviest of loads and the bulkiest of items — the stuff that other containers shy away from. Our container flat rack 40 feet model is specifically designed for versatility and heavy-duty applications.

Do 40ft flat rack shipping containers have a roof?

With no sides and roof, you can easily load from the top or sides. All our 40ft flat rack shipping containers for sale are quality-tested. Without a metallic roof and wall to worry about, you can load cargo wider or taller than the actual dimensions of the container. Buy 40ft flat rack containers for large equipment, trucks, and machines.

What is a 45 foot flat rack container?

Flat rack containers are used mainly for the transportation of oversized cargo, which can be loaded from the top or the sides of the container. 45 foot flat rack containers are extremely rare and very few companies like Pelican Containers supply them. These are used to carry oversized cargo and can be stacked when not in use.

What is a 40ft open top container?

Pelican Containers offers 40ft open top containers for sale. They are designed to exceed international standards for logistics and transport. The large dimensions are more than enough to fit full-length industrial steel beams and construction materials. It is also strong enough to support large and crane-loaded heavy machinery.
