

# 48v 10a lithium iron phosphate battery pack

## Overview

---

Does PowerTech offer a 48V lithium battery pack?

PowerTech Systems offers a range of 48V Lithium battery pack to meet most of our customer needs (up to 48V). PowerBrick® battery offer a high level of safety through the use of cylindrical cells in Lithium Iron Phosphate (LiFePO4) technology.

Why is 48V lithium iron phosphate battery popular?

A 48V lithium iron phosphate battery is popular because it is the safest type of lithium rechargeable battery currently available. In addition, it has much longer life cycles than other types of lithium batteries. The price for 48V lithium iron phosphate batteries is also affordable.

What is a 12V 150ah lithium iron phosphate battery used for?

This 12V 150Ah Lithium Iron Phosphate battery is used to replace standard lead-acid batteries in various applications such as mobility scooters, UPS systems, fire alarm systems, access control systems, and medical devices. It is also gaining popularity in military and aerospace applications. The Canbat CLI150-12 is a UL certified battery.

What is lithium iron phosphate battery?

Lithium Iron phosphate batteries are safer than Lithium-ion cells, and are available in 5 to 100 AH packs with much longer life than any commercialy available battery. Custom design and manufacture of state-of-the-art battery chargers, UPS, and power supplies for OEMs in a hurry!
