How do I connect my solar array to my inverter?

Look inside the manual of your inverter to know what size wire to use. Connect the solar array wires to the all-in-one. Do not connect the solar panels yet!.

How many ground neutral bonds can a home inverter have?

Each system can have only ONE ground neutral bond. But realize that if you are connecting your offgrid inverter to the grid, and your house has it's own ground neutral bond, then you will have two! That is not good. You will need to change the settings on your inverter:
