

4g solar container communication station EMS production

Overview

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a 20 ft air cooled ESS container?

The 20-ft air-cooled ESS container product integrates PACK, BMS, PCS, EMS, HVAC and fire safety system in one container which has advantages. In order to meet the design requirements of modularity, integration, and convenience in large-scale energy storage power station.

What are the modes of energy storage BMS?

The energy storage BMS solution supports two modes: a three-level architecture (BMU sub-control module + BCU main control module + BSU master control module). The ECO-EMS series of products is an integrated energy management system designed for energy storage application scenarios.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.
