

55w water pump with solar panel

Overview

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

What are solar energy-powered water pumps?

Solar energy-powered water pumps are water pumps running on the electricity that is generated by solar energy. For generating solar power, solar photovoltaic (PV) systems are used for complementary energy sources, they are deployed alongside diesel pumps in areas with plenty of sunshine and where the cost to run power lines is high.
