

Abu Dhabi solar container battery Project

Overview

ABU DHABI, 14th January, 2025 (WAM) -- In the presence of President His Highness Sheikh Mohamed bin Zayed Al Nahyan, Abu Dhabi Future Energy Company PJSC – Masdar and Emirates Water and Electricity Company (EWEC) today announced the launch of the world’s first large-scale ‘round the clock’ gigascale project, combining solar power and battery storage in Abu Dhabi. Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world’s first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

Will Masdar & EWEC build a solar-plus-storage project in Abu Dhabi?

Masdar and Emirates Water and Electricity Co. (EWEC) plan to build a \$6 billion, 5 GW/19 GWh solar-plus-storage project in Abu Dhabi, with operations set to start by 2027. Emirati state-owned renewable investment company Masdar is partnering with EWEC to build a giant solar and battery energy storage (BESS) facility.

How many GW of solar & battery storage will be produced?

The project will combine 5.2 GW of solar with 19 GWh of battery storage to produce 1 GW of continuous baseload renewable energy. The project was announced today by Sultan Ahmed Al-Jaber, United Arab Emirates Minister of Industry and Advanced Technology, at the opening of the Abu Dhabi Sustainability Summit 2025.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.
