

# **Afghanistan energy storage product export requirements**

## Overview

---

How much electricity does Afghanistan import?

Afghanistan currently imports over 670 MW of electricity from neighboring Iran, Tajikistan, Turkmenistan and Uzbekistan. This costs Afghanistan between \$250 and \$280 million annually. Afghanistan's western provinces have long purchased electricity from eastern Iran.

What is the trade balance of Afghanistan?

Afghanistan had a total export of 870,488.51 in thousands of US\$ and total imports of 8,568,013.88 in thousands of US\$ leading to a negative trade balance of -7,697,525.36 in thousands of US\$. The trade growth is 36.36% compared to a world growth of -1.24%. GDP of Afghanistan is 17,152,234,636.87 in current US\$.

What is the GDP of Afghanistan?

GDP of Afghanistan is 17,152,234,636.87 in current US\$. Afghanistan exports of goods and services as percentage of GDP is 16.85% and imports of goods and services as percentage of GDP is 50.73%. Afghanistan Trade Statistics including exports and imports by partner and products, tariffs and relevant development indicators.
