

African Solar Container Grid- Connected Supplier

Overview

Are our energy solutions made in Africa for Africa?

We pride ourselves that our energy solutions are made in Africa for Africa.”
Pre-installed 20ft solar container with all equipment for 33kWp of PV and up to 96kWh battery storage. Innovation in containerised electrification.

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international quality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”.

What is sustainsolar – a containerised solar power solution?

Sustainable Power Generation (Pty) Ltd recently introduced its new containerised solar power solution – SustainSolar – for the African market. The South African-based clean Developing economies face numerous challenges regarding reliable electricity supply, especially in rural areas, which require unique, inventive responses.

What is a containerised mini-grid system?

Containerised mini-grid system with 50kWp of PV and 150kWh of lithium-ion batteries for electrifying about 30 households. About the company Sustainable Power Generation offers containerised, high-quality, durable solutions for sustainable power generation, designed and manufactured in South Africa, with world-class components.
