

After-sales service for 100ft energy storage containers

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a residential energy storage system?

Our residential energy storage systems allow homeowners to store the energy produced by their solar panels during the day and use it at night or during periods of low sunlight. With our energy storage systems, residents can reduce their dependence on the grid and enjoy greater energy independence.

What types of energy storage solutions do you offer?

We offer commercial and industrial energy storage system solutions. Our air-cooling and liquid-cooling ess cabinets are safe, all-in-one solutions that are easy to maintain. Designed to meet a variety of energy storage needs, click to learn more about how our energy storage solutions can benefit your business.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.
