

Amsterdam outdoor communication battery cabinet testing company

Overview

Where can I test a battery?

DEKRA has extensive battery testing labs in various locations around the world. DEKRA offers a one-stop shop for testing batteries and battery storage systems. You have the option of testing in a DEKRA laboratory or in your own laboratory. With DEKRA you will have easier access to global markets.

What tests are conducted at the Offenbach battery test facility?

Below are some of the most sought-after tests conducted at our Offenbach battery test facility. The UN 38.3 transport test is a globally mandated safety standard for the transport of lithium batteries and lithium cells.

Does Intertek offer battery performance testing services?

Intertek offers comprehensive battery performance testing services designed to help you stand out from the competition. Our independent, third-party testing services encompass:

What testing systems are available in our battery labs?

Our Battery Labs have shock and vibration testing systems with a maximum force vector of 120 kN, mounting surfaces of 1.20 x 1.20 m and a maximum load of up to 1,000 kg. Shaker tests are also possible under thermal and climatic superposition with simultaneous loading/unloading.

Amsterdam outdoor communication battery cabinet testing company

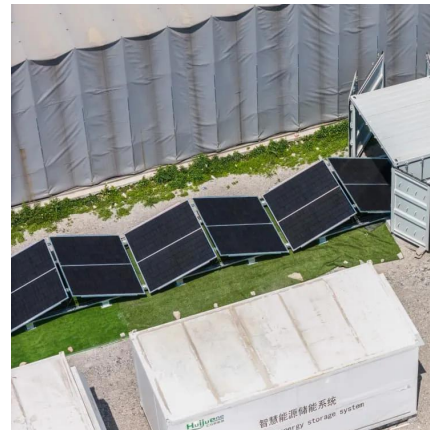

[Battery Testing & Certification](#)

Battery testing helps safeguard the countless products that use batteries. Laptops, telephones, remote controls, smoke detectors, watches and drills. These are just a few examples of the ...

[Battery test facilities in the Netherlands](#)

To actively connect developers and users of batteries/battery packs with test facilities to meet testing and certification needs in a faster and better way. To better align facilities by pooling ...
