

# **Australian lithium iron phosphate battery company**

## Overview

---

Who makes lithium batteries in Australia?

As the pioneer and longest-established lithium battery solutions provider in Australia, Lithium Batteries Australia introduced the first Lithium Iron Phosphate (LiFePO<sub>4</sub>) battery to the country in 2017.

Who is lithium Australia?

Lithium Australia (LIT) (ASX: LIT) is aiming to lead and enable the global transition to sustainable lithium production. The Company operates Australia's market leading battery recycler, produces critical battery material lithium ferro phosphate (LFP), and has developed a patented lithium extraction technology.

Are lithium-ion batteries the future of Australia?

In 2024, lithium-ion batteries accounted for a considerable portion of the Australian battery market, surpassing lead-acid batteries in residential and industrial applications. Australia's top lithium battery manufacturers, such as Tesla and BYD, play a significant role in energy transformation.

Why should you choose a lithium battery supplier in Australia?

As leading lithium battery suppliers in Australia, we understand how important it is to have energy storage that is both efficient and reliable. We offer lithium batteries at wholesale prices, making us the go-to choice for businesses and individuals in need of long-lasting, high-performance batteries.
