

Austrian lithium energy storage power supply manufacturer

Overview

What is European lithium's Wolfsberg Lithium Project?

Having lagged behind, Europe is now investing billions of Euros to transform its auto industry and become a leader in electrified mobility. European Lithium's Wolfsberg Lithium Project is in the heart of Europe's burgeoning cluster of battery manufacturers. Confirmation * You agree to add your personal information to our mailing list.

Who is Wolfsberg lithium?

We aim to be the first local lithium supplier into an integrated European battery supply chain. Located 270km SW of Vienna, in Carinthia, Austria, Wolfsberg is a hard rock lithium deposit with historical exploration a JORC resource, with exploration upside.

What is lithium used for?

Lithium is a highly versatile metal that is widely used in glass and ceramic manufacture, aluminium smelting, greases, air treatment, metallurgical powders, polymers and a variety of speciality salts and pharmaceuticals. Lithium is a key component of Li-ion battery chemistry; the dominant rechargeable battery technology.
