

# BESS containerized generator in Chiang Mai Thailand

## Overview

---

Where is the battery energy storage system (BESS) demonstration being conducted?

The project is being conducted within the BESS area newly established on the premises of Siam Toyota Manufacturing (STM) in Thailand. Executives from TMC, TMA, and SCG, in collaboration with partner companies, celebrate the launch of the Battery Energy Storage System (BESS) demonstration in Thailand.

Can Bess create business opportunities in Thailand?

Watcharin Boonyarit, director of solar energy development at the Department of Alternative Energy Development and Efficiency, noted the potential for BESS to create business opportunities as Thailand transitions to renewable power sources. "We should not only import BESS but also consider new investment projects in this battery business."

Why is Bess important in Thailand?

In the future, when the proportion of renewable energy in Thailand's power system increases, BESS will become even more important for controlling the quality of electricity in real time as well as enhancing grid flexibility.

How many Bess projects were approved in Thailand in 2022?

In 2022, the Thai government approved 24 BESS projects, all of which were located alongside solar operations. Their total combined storage capacity was 994 MW. Interestingly, this allowed generators to sign semi-firm power purchase agreements (PPAs) with the Electricity Generating Authority of Thailand (EGAT) with minimum availability guarantees.
