

BESS price of solar panels in Bandar Seri Begawan

Overview

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost?

Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

How to choose a solar company in Malaysia?

Major city-states like Kuala Lumpur, Selangor, Penang, Johor Bahru (JB), Ipoh, and Melaka typically have more solar companies, which helps drive down costs through competition. Tip: When comparing costs, ensure providers are offering quotes on a like-for-like basis. Some providers may appear cheaper upfront but include hidden charges later.

Which solar panels are best in Malaysia?

Tip: Typically, the larger the solar system, the faster the payback period (ROI). Solar Panel Brand Top brands in Malaysia include Jinko, Trina, Longi, and JA Solar. Premium panels offer better warranties, higher efficiency, newer technology, and a longer brand history.

Do solar panels save money in Malaysia?

Given the amount of sun in Malaysia, you will save a lot of money on your electricity bill after installation. For instance, a 6.6-kW solar system that generates around 10,000 kWh per year could save about RM3,800 – Rm6,400 yearly. This means you could potentially recoup your investment and payback your panels in as little as 5 years.
