

BESS solar container outdoor power in Krakow Poland

Overview

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

How many GWh of Bess projects will be built in Poland?

March 6, 2025: Greenvolt Power and BYD Energy Storage have agreed plans to develop up to 1.6 GWh of BESS projects in Poland.

Where are Bess projects located in Poland?

The geographical distribution of BESS projects in Poland is concentrated in regions with high renewable energy potential, such as Lower Silesian, Masovian, and Pomeranian. These areas are pivotal for Poland's energy transition, offering the infrastructure necessary for significant BESS installations.

How will BYD energy storage support Poland's energy transition?

Through in-depth cooperation with Greenvolt Power, BYD Energy Storage will support Poland's energy transition in a flexible, efficient, and economical manner, injecting new vitality into the energy storage markets in Europe and globally.
