

Bahamas solar Energy Storage 100kw Inverter

Overview

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill.

How many lynx C batteries can a 100kW inverter run?

Each 100kW ETC Series inverter can be paired with up to 6 Lynx C batteries, allowing for a 100kW/936kWh energy storage system to meet various C&I scenarios. Meeting the needs of smaller systems, the ETC50kW inverter can be combined with three Lync C towers to form a 50kW/468kWh energy storage solution.
