

Barbados Energy Storage Project

Overview

What is the renewable Barbados Project?

The European Union and Barbados have taken an important step towards a sustainable energy future with the launch of the Renewable Barbados project which aims to integrate solar power with on-site green hydrogen storage to provide a reliable, stable, and clean electricity supply to Barbados.

What is a green hydrogen storage project?

A joint initiative by the EU, Barbados, and leading French company HDF Energy, this green hydrogen storage project aims to integrate solar power with on-site green hydrogen storage to provide a reliable, stable, and clean electricity supply to Barbados.

What is the EU-Caribbean Energy Partnership?

The European Investment Bank (EIB) is working alongside the project to offer a combination of guarantees and investment grants. This launch is a key component of the broader EU-Caribbean energy partnership, which is being further strengthened through the Global Energy Transition Forum (GETF), recently launched by President von der Leyen at Davos.
