Battery cabinet test system

Overview

What is a battery test chamber?

Our battery test chambers are designed to test Lithium Ion batteries, lead acid, Battery Managements Systems (BMS), battery packs, modules, battery cells, and more. Our battery test chambers also offer many safety features that conform to IEC, UL and EUCAR testing standards for battery safety.

What is a battery testing system?

Cadex Electronics battery testing system can be used to test lithium-ion battery, nickel based battery and lead acid battery. Users can obtain customized battery testing equipment based on their specific needs.

What is a battery test bench?

These test bench solutions will allow OEMs, service providers and battery manufacturers worldwide to certify their batteries for passenger EVs and electric trucks. The expertise includes Performance & Endurance Testing, Environmental Testing and Mechanical & Abuse Testing.

What types of battery testing systems are available?

Fuel cell and flow battery test systems also available. Turn-key testing platforms including: regenerative battery cyclers, dynamic automation, high common mode cell voltage monitoring, and Emerald™ control software with advanced scripting language. Greenlight also offers automated battery assembly equipment and lithium cell conditioning cabinets.
