

Battery solar container energy storage system in Puerto-Rico

Overview

What is Puerto Rico's battery energy storage system?

The Puerto Rico Electric Power Authority's battery energy storage system is a 20,000kW energy storage project located in Puerto Rico. It was announced in 2018 and will be commissioned in 2020. The Puerto Rico Electric Power Authority owns the system (100%).

How much money is available to install solar & battery storage systems?

SAN JUAN, Puerto Rico (AP) — The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

What does Puerto Rico's \$365 million investment mean for community-level energy resilience?

This investment of up to \$365 million aims to improve community-level energy resilience for vulnerable populations across Puerto Rico, funding solar and battery storage installations for community healthcare facilities as well as common areas within public housing and privately owned subsidized multi-family properties.
