

Brasilia replaces solar container lithium battery pack

Overview

Which companies recycle lithium-ion batteries in Brazil in 2024?

According to ABVE, the main companies specializing in recycling lithium-ion batteries operating in Brazil in 2024 are Re-Trek, Energy Source, and Lorene. These companies recycle batteries from cell phones, laptops, tablets, and more.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

How can batteries be recycled in Brazil?

In Brazil, companies and research centers are investing in recycling and using reused cathode material to manufacture new batteries through the hydrometallurgical process. On the international front, pyrometallurgy and physical recycling are being applied, and other methods, such as direct processes and biohydrometallurgy, are also under study.

Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery storage businesses or in the power sector (except in very specific segments or sectors of the economy).
