

Brunei rooftop solar panel manufacturer

Overview

Can solar power reduce reliance on fossil fuels in Brunei?

Historically, Brunei's primary energy supply has relied on fossil fuels. This first successful project demonstrates the technical and economic viability of solar power in Brunei's context, paving the way for further development in the clean energy sector and signifying a positive start in reducing reliance on fossil fuels.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnete Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.

Why is solar energy important in Brunei?

By harnessing solar energy, we are reducing carbon emissions and paving the way for a cleaner, more sustainable future for Brunei. This project serves as a model for other institutions and communities to follow.

How many solar panels can be installed at Berakas power station?

The BPC Headquarter Building rooftop solar PV system has a capacity of 135kWp consisting of 320 LG Panels and the use of SMA inverters. The entire project consisting of 3 rooftop locations around the Berakas Power Station shall have a total capacity of 191kWp when completed in December 2020.
