# Buenos Aires Solar Mobile Lighting

## Overview

---

Does Buenos Aires have an ICT solution?

The City of Buenos Aires, Argentina, has teamed up with Philips to implement an ICT solution that enables 72% of the city's network of streetlights to be monitored and controlled remotely.

How does Philips TeleManagement work in Argentina?

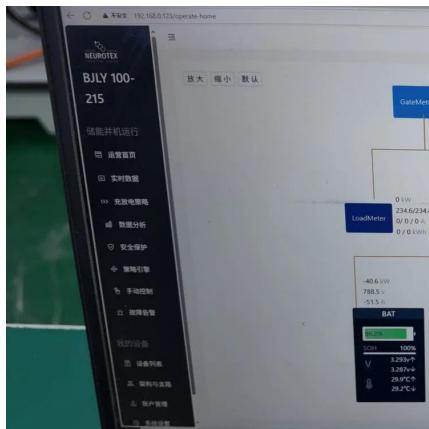

The tailor-made ICT system, based on Philips' CityTouch Telemanagement Platform, is resulting in efficiency gains, saving the city money and reducing greenhouse gas emissions at the same time. Argentina is heavily dependent upon fossil fuels, which puts a great burden on the environment.

How does TeleManagement work in Argentina?

Argentina is heavily dependent upon fossil fuels, which puts a great burden on the environment. The telemanagement system allows each light point in the network to be monitored on an individual basis, resulting in the optimal operation of each luminaire and the programming of replacements or future maintenance tasks.
