

# **Bulk Procurement of 30kWh Mobile Energy Storage Containers**

## Overview

---

What is a 30kW power output & capacity?

High Capacity: The 30KW power output and 30KWH capacity deliver reliable energy storage and backup for businesses. This makes it an essential tool for battery energy storage solutions across various industries.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);.

What are energy storage procurement contracts?

Energy storage procurement contracts must also take into account the ever-evolving suite of laws and regulations applicable to energy storage projects, including as a result of the recent change in administration in the United States.
