

Can European portable power banks

Overview

What are the power bank rules across European airlines?

By following these steps, you will gather comprehensive and reliable information about power bank rules across European airlines. Passengers can carry power banks under 100Wh on airplanes in Europe without restriction. For those between 100Wh and 160Wh, airline approval is needed.

Can power banks be used on European flights?

Battery capacity limits dictate how power banks can be used on European flights. Power banks with a capacity up to 100 watt-hours (Wh) are generally permitted in carry-on luggage. According to the EASA regulations, devices between 100 Wh and 160 Wh require prior approval from the airline.

Can a power bank go on a plane?

At the security check, you often have to show your power bank. The rules for power banks with more capacity than 27,000mAh differ per airline. Power banks with a capacity of more than 43,000mAh can't go with you on the plane.

Which airlines allow power banks in the UK?

There are some longer-haul airlines, which fly in and out of the UK, that permit passengers to bring power banks on board but not use them, including Cathay Pacific, Emirates, Singapore Airlines and Thai Airways.
