

Canberra Off-Grid Solar Container 40kWh

Overview

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

What is a solar container?

Designed for mobility, our solar containers are easy to transport and install, making them ideal for remote locations or temporary setups. Perfect for off-grid projects, backup systems, or renewable energy initiatives, our solar containers offer a sustainable and reliable energy option.

What is an off-grid Solar System?

Off-Grid solar systems are self sufficient and function entirely free of the national electricity grid. They combine solar panels, inverters, batteries, and backup generators for emergencies, offering energy independence like never before. Solar panels power your home during daylight hours. Batteries handle your energy needs at night.

Can GES energy install an off-grid Solar System?

Our in-house, SAA-accredited off-grid solar specialists can supply, design and install an off-grid system for you, even if you're located in an isolated area without access to the local grid. With GES Energy on your side, you can have peace of mind knowing that your off-grid system will be installed correctly.
