

# **Cape Town Energy Storage Power Station has several branches**

## Overview

---

How does Cape Town support decarbonisation of electricity?

ties and the City of Cape Town's Energy Strategy  
THE KEY AREAS OF ALIGNMENT INCLUDE: Decarbonisation of electricity is evidenced through the City of Cape Town's delivery and support of new renewable energy sources (whether owned or procured by the City or from the private sector) to reduce the local grid emissions factor. This is.

What is Cape Town's energy strategy?

TY OF CAPE TOWN  
FOREWORD FROM THE EXECUTIVE MAYOR  
With this Energy Strategy, Cape Town is charting the long-term path to 2050, as we make the great transition from centralised supply of unreliable, costly and fossil fuel-based Eskom energy, to an increasingly decentralised supply of reliable, cost-effective, carbo.

What is a Steenbras pumped storage station?

Located in Cape Town, the Steenbras Pumped Storage Station plays a pivotal role in protecting the city's residents, businesses, and economy from the adverse effects of load shedding. The facility can shield the city from one or two stages of power cuts, depending on the lower dam levels.

What are the main sources of energy in Cape Town?

from generation, to distribution, and to demand.  
Liquid fossil fuels: Combined, the use of petrol, diesel, and parafin makes up the largest source of energy in Cape Town and is mainly used for transport and increasingly as a source of back-up power s
