

# Cape Verde solar container outdoor power procurement EK

## Overview

---

Where will Cape Verde's Solar power plants be built?

The solar power plants will be built as part of Cape Verde's Renewable Energy and Improved Utility Performance Project and will be constructed on four different islands in the archipelago. Jonas Muthoni is an entrepreneur and renewable energy expert.

How will the reiap project impact Cape Verde?

The REIUP project is expected to contribute significantly to achieving this target. In recent years, Cape Verde has made significant progress in promoting renewable energy sources. The country has been investing in wind and solar energy projects, and in 2019, inaugurated the largest solar power plant in West Africa.

Can Cape Verde generate 50% of its electricity from renewable sources?

Cape Verde has set an ambitious target to generate 50% of its electricity from renewable sources by 2025. The REIUP project is expected to contribute significantly to achieving this target. In recent years, Cape Verde has made significant progress in promoting renewable energy sources.

Where will solar power plants be built in Portugal?

The scope of the work involves the construction of a 1.3 MWp solar park in Fogo, an island located in the southern part of the archipelago. Additionally, a 1.2 MWp solar power plant will be built on Santo Antão, and two 0.4 MW solar power plants will be constructed on the islands of São Nicolau and Maio.
