

# Chile Container Batteries

## Overview

---

Does greenergy have a solar-plus-storage project in Chile?

Solar arrays at Greenergy's Oasis de Atacama project in Chile. Image: Greenergy  
Greenergy has raised financing for the fourth phase of a solar-plus-storage project in Chile set to feature 11GWh of battery storage capacity when completed.

Should solar batteries be used in Chile?

Attendees at the Energy Storage Summit Latin America hosted by our publisher Solar Media in October last year heard that with solar PV in Chile—one of the sunniest countries in the world, particularly in the Atacama Desert region—at risk of rampant curtailment, the addition of batteries is being seen as a necessary mitigation of that risk.

Will CATL supply the Oasis de Atacama project in Chile?

CATL supply will cover phase four of the Oasis de Atacama project in Chile which is expected to be operational by 2026. Image: Greenergy Spanish  
independent power producer (IPP) Greenergy has secured a 1.25GWh energy storage supply agreement with CATL for its Oasis de Atacama project in Chile.

Why does Chile need more energy storage?

Chile is currently a hotbed of grid-scale energy storage activity, with huge levels of solar curtailment, massive energy price volatility and regulatory reforms helping to drive the need for more storage. See all recent coverage of the country [here](#).
