

# **China all in one solar system in Durban**

## Overview

---

Who are Durban solar?

We specialise in solar energy systems for homes and businesses in some of our core service areas which are Durban, Ballito, Hillcrest, Kloof and Westville – but can also work on larger commercial projects across KZN and South Africa. Our reputation as a trusted Durban solar company is built on delivering reliable systems and excellent service.

Are solar panels and inverters a good option for Durban residents?

Together, solar panels and inverters form a complete system that allows you to tap into renewable energy. For residents in Durban and throughout South Africa, load shedding can disrupt your daily schedule and cause added inconvenience.

Why should you choose a Durban solar company?

Our reputation as a trusted Durban solar company is built on delivering reliable systems and excellent service. No matter the size of the system, we only use tier one products from trusted brands that produce high quality equipment. We stay on top of the latest solar technology and regulatory updates so you don't have to.

Why is South Africa a good place for solar energy?

The geographic location and warm year-round weather climate of South Africa makes it the perfect place for solar energy generation. It's said by some sources that some areas receive over 2,500 hours of sunlight annually which is the main element needed for an effective solar power system.
