

# China battery circuit breaker in Poland

## Overview

---

Who makes a battery in Poland?

In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Why is Poland becoming a magnet for battery factories?

Poland is rapidly becoming a magnet for investments in battery factories thanks to its skilled workforce and government programmes promoting electromobility. Which companies are driving this transformation and what is their impact on the industry?

.

Why is Poland a good place to build a battery?

According to Krzysztof Burda, president of the Polish Chamber of Electromobility Development (PIRE), Poland's strategic location makes it "an ideal hub for battery, components, and subassembly factories". In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there.

What factors affect the battery industry in Poland?

When exploring the battery industry in Poland, several key considerations come into play. First, the regulatory environment is crucial, as the European Union has set stringent regulations regarding battery production and recycling to promote sustainability and reduce environmental impact.
