

# **China solar power to battery in Cebu**

## Overview

---

How much does solar power cost in Cebu?

The project is Cebu's first local government-led public-private partnership in renewable energy. Garcia said solar power costs only P4.50 per kilowatt-hour, compared to P12 to P15 per kilowatt-hour from coal-fired plants. She said adding more renewable energy to the grid would help lower electricity rates for consumers.

Where is the largest solar power farm in Cebu?

CEBU CITY — A sun-drenched field in Barangay Talisay, Daanbantayan, will be the site of the largest solar power farm in the province. On Sunday, a groundbreaking ceremony was held for the proposed 150-megawatt facility, a joint venture between Spain-based Acciona Energia and Makati-based Freya Renewables Inc.

Will Daanbantayan solar plant reduce electricity costs in Cebu?

With a committed investment of Php7.5 billion (approximately USD130 million), the Daanbantayan Solar Plant is expected to significantly reduce electricity costs in Cebu.

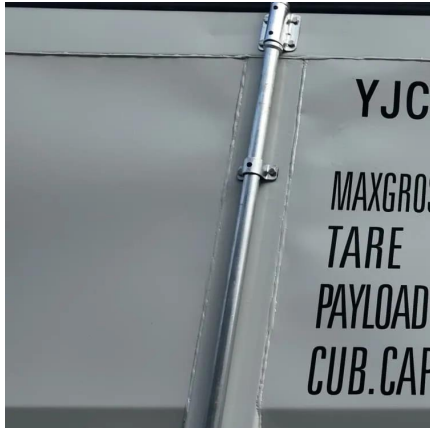

Will a multi-billion-peso solar power plant rise in Daanbantayan?

A multi-billion-peso solar power plant is set to rise in the town of Daanbantayan through a PPP between the Cebu Provincial Government and the Spain-based energy firm Acciona Energia.
