

Cuban solar panel manufacturer

Overview

Where are the solar panels made in Cuba?

The solar panels used in the project are partly produced by the Cuban Electronic Industry -70 percent of all the solar panels were assembled in Pinar del Río, and 100 percent were installed by the Copextel company ran by the Ministry of Computer Science and Communications (MIC).

Is Cuba a good place to build a solar project?

High-quality construction materials for your projects Cuba is in a geographically privileged position for solar energy utilization, with over 330 sunny days per year and an average solar irradiation of 5.5 kWh/m²/day. This abundant solar radiation makes the island an ideal location for photovoltaic system implementation.

What kind of generators are available in Cuba?

Silent Excalibur diesel and gasoline generators from 2KVA to 20KVA with electric start, low consumption and noise level below 60dB. High-quality construction materials for your projects Cuba is in a geographically privileged position for solar energy utilization, with over 330 sunny days per year and an average solar irradiation of 5.5 kWh/m²/day.
