

Current status of 5g base stations in Honiara

Overview

Does digital Nasional Berhad offer 5G coverage?

Check out our interactive 5G coverage map! Contact your mobile network operator for more information about availability of 5G products and services in your area. *Digital Nasional Berhad is committed to delivering a minimum download speed of 100Mbps across the network. Please note that connection speeds are influenced by several factors.

Where does 5G coverage come from in 2024?

By the end of 2024, 5G mid-band population coverage outside of mainland China reached 40 percent, but coverage varies between regions. The Middle East and Africa, as well as Latin America, are the two regions with the lowest total and mid-band coverage, having reached around 10 and 20 percent coverage respectively at the end of 2024.

What is a 5G base station?

They help fill coverage gaps, improve network reliability, and handle high data traffic. In cities, more than 60% of 5G base stations are small cells, placed on rooftops, lampposts, and building facades. These mini base stations are crucial for delivering consistent 5G speeds in crowded areas like stadiums, shopping malls, and business districts.

Which countries have extensive 5G coverage?

The countries with the most extensive 5G coverage include India, which has rapidly expanded its 5G network in the last two years, and much of Europe. Notably, India's neighbors like Pakistan, Myanmar, and even large parts of China have less 5G coverage. In Europe, good coverage extends up to Ukraine, Belarus, and into Russia.
