DC inverter 300v voltage

Overview

What is a 300W power inverter?

A 300W power inverter, like the Geloo 300W, converts DC power from your car (12V) to AC power (110V). It provides 300 watts of continuous power and 600 watts of peak power, making it suitable for charging various electronic devices such as laptops, lights, TVs, and more.

What is a DC/AC inverter?

ACI-3000 and ACB-3000 The ODS-3000 DC/AC inverters consist of two cascaded converters, one DC-DC generates an intermediate output voltage from the input voltage. That intermediate voltage is inverted to supply the output voltage and frequency by means of a second DC/AC converter.

What is a 300V power supplies - board mount DC converter?

A device designed to change a direct current voltage input level to a one or more different direct current voltage output level. 300V Power Supplies - Board Mount - DC DC Converters are in stock at Digikey. Order Now! 300V Power Supplies - Board Mount ship same day.

What is the input voltage of the inverter?

The input voltage ranges from 24Vdc to 300Vdc and frequency can be set to 50Hz or 60Hz via a dip switch. All models are designed to comply with the EN50155 standard for rolling stock and fit perfectly in a wide variety of industrial applications. This inverter series has been designed for chassis mounting and a rackmount kit is available as well.
