

## **Delivery time of 10MW photovoltaic container**

## Overview

---

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

.

Can heavy solar equipment be delivered in a shipping container?

Heavy solar equipment can't always be delivered in a standard shipping van or shipping container, it's at risk of being damaged during transit, and it needs to arrive onsite according to energy project timelines. Effective supply chain management requires top-notch renewable energy logistics.

How long does it take to install a solar panel container?

Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding solar panel inside the container can be unfolded or stowed in as little as 1h ( the time does not vary for different photovoltaic containers ).

What is LZY mobile solar container system?

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites & emergency power. Get a quote today!
