

Dublin battery solar container energy storage system installation

Overview

Can battery storage help reduce energy bills in Ireland?

As energy prices remain unpredictable and solar adoption continues to grow, Irish homeowners are turning to battery storage to maximise their energy independence. By storing excess solar power for use at night or during peak-rate hours, battery systems are helping thousands of homes cut electricity bills even further.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

How do I choose the right solar battery storage solutions?

Choosing the right solar battery storage solutions depends on your specific energy needs. Sunstream Energy will assess your Solar PV requirements with you and can advise you of the best system storage option based on your needs. Solar energy is a clean and renewable resource that can significantly reduce your reliance on the grid.
