

Energy Storage of Mongolian New Energy Company

Overview

Why is Inner Mongolia constructing a new energy storage power station?

[Photo/Xinhua] HOHHOT -- Inner Mongolia Energy Group has started constructing a large-scale new energy storage power station in the Ulan Buh Desert, the eighth-largest in China, to better harness new energy power for grid connection.

Who owns a power project in Mongolia?

INNER MONGOLIA Datang International Tuoketuo POWER Generation owns 10 projects totaling 6,120MW. HUA NENG Yimin Coal and POWER owns 6 projects totaling 3,400MW. Guodian & Jiantou Inner Mongolia Energy Investment owns 4 projects totaling 2,640MW. Jingneng (Xilinguole) Power Generation owns 4 projects totaling 2,640MW.

Is Inner Mongolia a good place for solar energy?

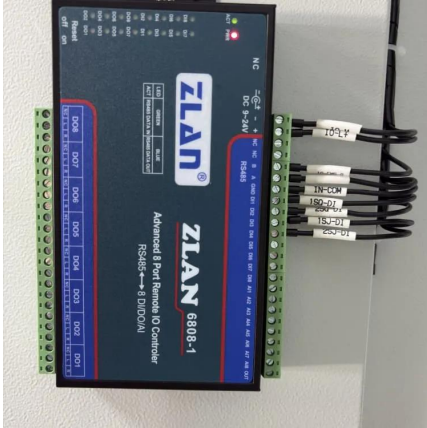

The total prospective capacity from coal power plants takes up almost 7% of the national total, ranking as the third largest province with coal projects in the pipeline. Meanwhile, Inner Mongolia boasts tremendous potential for solar and wind energy. Its deserts and sandy lands make ideal locations for solar and onshore wind installations.

How much electricity is exported from Inner Mongolia?

By 2025, one-third of the total electricity generation (equaling 100TWh out of 300TWH) from Inner Mongolia will be exported outside the province. By 2030, one-third of the total electricity generation (equaling 200TWh out of 600TWH) from Inner Mongolia will be exported outside the province.
