

# **Energy companies are using foldable containers for ultra-large-capacity retail**

## Overview

---

What is CATL Tener energy storage?

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution. It breaks the limitations of power capacity and product transportation, and makes breakthroughs in space utilization, energy efficiency, and cost."

Is CATL Tener energy storage a Bess system?

"CATL has always been at the forefront of the energy transition," said Amanda Xu, CTO ESS & President of ESS Europe CATL. "To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution."

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

How does the new energy storage platform break the constraints of fixed container sizes?

It is reported that the new-generation energy storage platform breaks the constraints of fixed container sizes by introducing a series of products: the 10-foot Flex version, 20-foot Class version, and 30-foot Plus version, with duration ranging from 2-hour to 12-hour.

## Energy companies are using foldable containers for ultra-large-capacity
