

# **Energy companies offer discounts on DC photovoltaic containers**

## Overview

---

Are DC solar incentives worth it?

Whether you live in Georgetown or Eastern Market, Columbia Heights or Navy Yard, thanks to D.C.'s solar incentives you too can feel like you live at 1600 Pennsylvania Avenue. Between the federal tax credit and other DC-specific incentives, you can save thousands on solar panels, making them well worth it.

How much can you save on solar panels in DC?

The average D.C. solar shopper will save \$4,521 on solar panels with rebates and incentives. But act fast—the biggest incentive expires after this year. Compare multiple offers and save up to 20% Why trust EnergySage?

As subject matter experts, we provide only objective information.

How much do solar panels cost in Washington DC?

As of November 2025, the average solar panel cost in Washington D.C. is \$3.01 /W. If you install a 5 kW system it will cost you between \$12,810 to \$17,332, with an average cost of \$15,071. Helping customers make informed decisions since 2009. Create your own clean energy with solar panels.

Can you get free solar panels in Washington DC?

Washington D.C. is one of the few places in America where some homeowners can actually get free solar panels, if their income is below a certain threshold. Other homeowners can still save big through other incentive and rebate programs.
