## Overview

---

Who is dcgroup?

DCGROUP was founded in 2010, and specializes in the research and development, production, and sales of lithium battery core materials, lithium iron phosphate energy storage batteries, and systems. The company is dedicated to providing safe, efficient, clean, and sustainable green energy solutions for customers worldwide.

Who is Shandong scetl energy technology?

Shandong SCETL Energy Technology Co., Ltd. is a new energy enterprise integrating research and development, production, sales and service of energy storage equipment. The company's business scope covers research and development, manufacturing, testing, service and general engineering contracting of energy storage device.

What is energy storage business scope?

The company's business scope covers research and development, manufacturing, testing, service and general engineering contracting of energy storage device. The business includes battery, PCS, BMS, EMS, energy storage power station, small energy storage products, mobile energy storage and other whole industry sectors.

What makes DC group unique?

With a customer-centric approach, DC Group operates a highly efficient and intelligent factory that is fully controlled throughout the product lifecycle. The factory comprises seven modules and 46 production processes, all of which are monitored in real-time online to ensure exceptional product quality.
