

Energy storage cabinet site charging battery site cabinet

Overview

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

What is a battery storage cabinet?

In terms of storage, cabinets are usually constructed from sheet steel, with an acid-resistant powder coating. Features may include close-fitting, lockable doors, steel shelving and a spill containment sump to contain any battery acid leaks or spills.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.
