

Establishment of energy battery cabinet at Bangkok site

Overview

Where is the battery energy storage system (BESS) demonstration being conducted?

The project is being conducted within the BESS area newly established on the premises of Siam Toyota Manufacturing (STM) in Thailand. Executives from TMC, TMA, and SCG, in collaboration with partner companies, celebrate the launch of the Battery Energy Storage System (BESS) demonstration in Thailand.

Are there grid-scale energy storage projects in Thailand?

There are currently few grid-scale energy storage projects in Thailand, although the situation is likely to change. In furtherance of its commitments under the Paris Agreement, the Thai government has enacted policies which envisage renewable energy accounting for the majority of grid capacity and output by 2040.

Is energy storage a new business model in Thailand?

Energy storage is in its infancy in Thailand, and new business models are already emerging. As the regulatory framework adapts to accommodate new players in the market, we expect to see greater penetration in this area. Notes Energy Policy and Planning Office, Ministry of Energy, electricity statistics.

Can batteries be used as stationary energy storage?

From a resource recycling and sustainability perspective, establishing a system to repurpose these batteries is essential. Utilizing them as stationary energy storage not only helps address these challenges but also contributes to the realization of a circular economy.
