

Explosion-proof battery for solar container communication stations

Overview

Who makes explosion proof lithium ion battery?

As 19 years manufacturer of explosion proof battery, Large Power provide Exib & Exd explosion proof Lithium ion Battery for mine, oil well, petrochemical and other explosion-proof places.

What types of explosion protection batteries are available?

We offer various explosion protection batteries for use in hazardous areas including the ESB12, ESB24, ESB50, ESB55 and ESB75. ESB12 and ESB24 Pyroban explosion protection offshore batteries are designed for use in hazardous areas and are corrosion resistant with a 316 stainless casing.

What is explosion proof battery management system?

Bundled with our Explosion Proof Battery Management System, the software application manages the Controller and records all battery readings in its database for viewing, trending, and reporting. Data is turned into actionable information in the form of alerts and dashboards.

Are esb12 & esb24 Pyroban explosion protection batteries safe?

ESB12 and ESB24 Pyroban explosion protection offshore batteries are designed for use in hazardous areas and are corrosion resistant with a 316 stainless casing. The 12V and 24V units contain deep cycle batteries protected with a 50A MCB isolator. These ATEX batteries are not suited to engine cranking applications.
