Factory price furnace breaker in Vancouver

Overview

How much does a new furnace cost in Vancouver?

Investing in a new furnace for your Vancouver home is a significant decision that involves both the cost of the furnace itself and the installation process. While prices can vary widely depending on the type of furnace, efficiency rating, and other factors, expect to pay anywhere from \$5,500 to \$12,500 for a full furnace installation.

How much does a furnace cost in Canada?

While costs can vary widely depending on the factors mentioned above, here's a general breakdown of furnace costs for Canadian homeowners in 2025:
Entry-Level Models: \$3,000 – \$4,000 for a basic, lower-efficiency furnace with a simple installation. Mid-Range Models: \$4,500 – \$6,500 for a high-efficiency furnace that offers better energy savings.

Is a gas furnace cheaper than electricity in Vancouver?

However, gas furnaces are often more cost-effective in the long run, given that natural gas is typically cheaper than electricity in Vancouver. Efficiency Rating: The furnace's Annual Fuel Utilization Efficiency (AFUE) rating plays a key role in cost. The higher the AFUE, the more efficient the furnace, but you'll also pay more for it upfront.

How much does a furnace cost?

Your home's size, the furnace's efficiency rating, the type of fuel it uses, and where you live will all impact the final price. On average, you should expect to spend between \$4,000 and \$6,500 for a high-efficiency furnace, but premium models and complex installations can increase the cost.
