# Financing Comparison of Mobile Energy Storage Container DC Projects with Batteries

## Overview

---

Can you finance a battery storage system?

Recently, Peak Power conducted an energy storage finance webinar that focused on strategies available for financing battery storage system projects. The webinar aimed to provide valuable insights into financing options and strategies for these projects.

Are battery energy storage projects financially viable?

Barrague highlighted different geographic markets where battery energy storage projects are financially viable. He emphasized that each market has unique price signals and market design constructs that allow for monetizing battery services.

Who owns a battery energy storage system?

Archie discussed various ownership structures for battery energy storage systems. Third-party ownership involves a company like Madison Energy Investments financing and operating the battery while the savings are shared between the energy storage system owner and the host site.

Are government subsidies for battery storage a viable revenue stream?

The available government subsidies for battery storage in the UK do not currently form a sufficiently significant and stable revenue stream to ensure battery storage project financings are fundable on the basis of capacity market or ancillary services alone.
