Overview

How popular is a foldable container?

As previously noted, the foldable container is now used at more than 60 depots and ports and on 15 shipping lines and growing in popularity all the time. “The shipping industry is typically very conservative,” said Broekhuis.

What is a 4fold foldable container?

So it is that the 4FOLD foldable container from Holland Container Innovations (HCI) is providing a novel solution that not only reduces CO2 but offers a number of additional benefits — more efficient to ship empties back (by a ratio of four to one!), space saving, and faster handling at the terminal.

Why do you need a lid for a foldable container?

Our foldable boxes come with a range of customizable features, offering flexibility for various industries and optimizing your logistics operations. Lids for foldable containers provide essential protection for contents, keeping items safe from dust, moisture, and contaminants during storage and transportation.

Who invented the foldable container?

The concept of the foldable container was developed out of the Dutch Delft University of Technology in the Netherlands beginning in 2000 by the founders, under which Mr. Simon Bosschieter was a part.
