Georgia will exempt bifacial solar modules

Overview

Today's decision means that imported bifacial modules are once again exempt from Section 201 tariffs, effective immediately. Will bifacial solar panels lose exemption?

In addition to bifacial panels losing their exemption, the Biden Administration said it will raise the tariff-rate quota (TRQ) of silicon solar cells by 7.5 GW, if needed.

Will Biden revoke tariff exemptions on bifacial solar modules?

The Biden Administration is expected to revoke tariff exemptions on bifacial solar modules following a petition led by Qcells, a company with a multi-billion-dollar investment in U.S. manufacturing. From pv magazine USA.

Is a bifacial exemption a win for the solar industry?

The Solar Energy Industries Association (SEIA) deemed it a win for the industry as it kept costs for imported modules low. Originally granted in June 2019, the exemption of bifacial modules was revoked by the Trump Administration in October 2020.

Are bifacial solar modules exempt from Section 201 tariffs?

In November of 2021, the U.S. Court of International Trade re-instated the exemption of bifacial solar modules from the Section 201 tariffs. The Solar Energy Industries Association (SEIA) deemed it a win for the industry as it kept costs for imported modules low.
