

German UPS Uninterruptible Power Supply Company

Overview

Why do we need an uninterruptible power supply (UPS) system?

In data centres, traffic control centres, on sensitive production lines and in many other fields, systems for the uninterruptible power supply (UPS systems) save lives and secure data, avoid costs, ensure order, protect infrastructures, and prevent situations arising that can threaten livelihoods.

What is a static uninterruptible power supply (UPS)?

Our static uninterruptible power supply (UPS) systems comply with the VFI-SS-11 classification according to IEC 62040-3. With their robust industrial design, they support a secure consumer supply in continuous operation.

What is a Gustav Klein UPS system?

Gustav Klein UPS systems are equipped with a colour touch screen display and consist of the components: Supports consumption-optimized networks (input $\text{THDi} \leq 6\%$, hardly any reactive power consumption, battery test by means of mains regeneration and full UPS power).

Why do you need a UPS system?

In times of energy transition, our UPS systems protect against system failures caused by interruptions and disturbances in the grid feed. Customers from the telecom, railroad, power generation / distribution, chemical industry, among others, have been relying on the high quality and reliability of our UPS systems for decades.

German UPS Uninterruptible Power Supply Company

UPS Systems

Uninterruptible power supply solutions Maximum availability and reliability of measurement and control technology, drives, sensors, cameras, communication and safety technology, as well ...

[UPS Systems \(UPS System, Uninterruptible Power Supplies\)](#)

Ups Systems Are An Essential and Integral Component of Your Security Concept
An Individual Solution to Suit Any Requirements
Advantages to You at A Glance
Be Equipped For All Requirements with Ups Systems
NTC will design and integrate your UPS systems in any required size and complexity. From small office mains supply systems to high availability systems in computing centres and on to uninterruptible power supplies on an industrial scale. In all cases, we supply overall, manufacturer-independent solutions, components and accumulators that leave no gaps.
