

# **Global battery storage capacity**

## Overview

---

How many GW of battery storage capacity are there in the world?

Strong growth occurred for utility-scale battery projects, behind-the-meter batteries, mini-grids and solar home systems for electricity access, adding a total of 42 GW of battery storage capacity globally.

Which country has the largest battery storage capacity in the world?

Last year, a record 200 GWh of new BESS projects came online globally, bringing the world's total operational battery storage capacity to 375 GWh. China maintained its leading position, with over 100 GWh of new capacity, followed by the United States, which added 35 GWh. Germany, Australia, and the United Kingdom were among the top five.

How big will energy storage be in 2025?

BloombergNEF forecasts a record 94 GW (247 GWh) of utility-scale storage in 2025—a 35% rise—driven by China's storage mandates. US tariffs, policy shifts and LFP dominance will drive growth to 220 GW/972 GWh by 2035. The global energy storage sector is on track for another record year in 2025 as utility-scale projects expand into new regions.

Is energy storage on track for a record year in 2025?

The global energy storage sector is on track for another record year in 2025 as utility-scale projects expand into new regions. BloombergNEF (BNEF) forecasts that developers will add 94 gigawatts (247 gigawatt-hours) of battery capacity this year, a 35% increase over 2024 and the highest annual total to date (excluding pumped hydro).

## Global battery storage capacity

---

### [Worldwide battery storage installations up ...](#)

Jul 15, 2025 · Deployed global capacity for the first half of 2025 culminates to 86.7 GWh of battery energy storage system (BESS) capacity, ...

### [Global battery storage capacity expands by record 200 GWh ...](#)

May 29, 2025 · Global installed energy storage is on a steep rise and is expected to increase ninefold by 2040, to over 4 TW, driven by battery energy storage systems (BESS), which saw ...

### [Worldwide battery storage installations up 54% in first half ...](#)

Jul 15, 2025 · Deployed global capacity for the first half of 2025 culminates to 86.7 GWh of battery energy storage system (BESS) capacity, representing a year-on-year increase of 54%.

### [Charted: Battery Capacity by Country \(2024-2030\)](#)

Apr 23, 2025 · Charted: Battery Capacity by Country (2024-2030) This was originally posted on our Voronoi app. Download the app for free on iOS or Android and discover incredible data ...

### [Executive summary - Batteries and Secure Energy Transitions ...](#)

3 days ago · Battery storage in the power sector was the fastest growing energy technology in 2023 that was commercially available, with deployment more than doubling year-on-year. ...

### [Global Energy Storage to Hit 94 GW in 2025, ...](#)

Jun 19, 2025 · The global energy storage sector is on track for another record year in 2025 as utility-scale projects expand into new regions. ...

### [Global battery storage capacity expands by ...](#)

May 29, 2025 · Global installed energy storage is on a steep rise and is expected to increase ninefold by 2040, to over 4 TW, driven by battery ...

### [New global battery energy storage systems capacity doubles ...](#)

Apr 25, 2024 · Global battery energy storage systems, or BESS, rose 40 GW in 2023, nearly doubling the total increase in capacity observed in the previous year, according to a special ...

### [Worldwide battery storage installations up ...](#)

Jul 15, 2025 · The data shows that over half of June's installations were concentrated in China, maintaining the country's dominance in the global ...

## **Global energy storage**

Feb 27, 2025 · Renewable Energy Global pumped storage capacity 2024, by leading country  
Energy Battery storage cumulative capacity in Europe 2022-2030 Batteries Lithium-ion battery ...

### [COP29: can the world reach 1.5TW of energy storage by 2030?](#)

Nov 28, 2024 · According to Power Technology 's parent company, GlobalData, global energy storage capacity is indeed set to reach the COP29 target of 1.5TW by 2030. Rich explains that ...

### [Global Energy Storage to Hit 94 GW in 2025, Says BNEF](#)

Jun 19, 2025 · The global energy storage sector is on track for another record year in 2025 as utility-scale projects expand into new regions. BloombergNEF (BNEF) forecasts that ...

### [Worldwide battery storage installations up 54% in first half ...](#)

Jul 15, 2025 · The data shows that over half of June's installations were concentrated in China, maintaining the country's dominance in the global energy storage market. Deployed global ...

### [COP29: can the world reach 1.5TW of energy ...](#)

Nov 28, 2024 · According to Power Technology 's parent company, GlobalData, global energy storage capacity is indeed set to reach the ...

### [Global battery storage capacity additions, 2010-2023](#)

Nov 27, 2025 · Global battery storage capacity additions, 2010-2023 - Chart and data by the International Energy Agency.
